| Total grants to institutions and partner organisations as per note 10 to the Macmillan Financial Statements 2021 | (764) | 72,923 | 4,271 | 76,430 |

*Other grants are those which are made in relation to a service which is more than just for a Macmillan post or a building. This includes developing and supporting research and services to assess and meet patient needs across health, financial, information, emotional and practical support, from diagnosis onwards. Negative values reflect a net re-allocation of grants between categories.

Grants to individual institutions disclosed above represent new commitments in 2021 net of releases for any unused prior year commitments.

New grants committed in the year are recognised as charitable expenditure in the year in which they are made and are shown above. Write-backs of underused grants are released against the line of charitable expenditure to which they were originally made.

Grants to institutions and partner organisations resulted in expenditure of £76,430,000 (2020: £10,467,000 net credit).
